

DETAILED ACTION

Election/Restrictions

1. Claim 25 is allowable. The restriction requirement, as set forth in the Office action mailed on 25 February 2009, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 26-29 are directed to a process for producing a polymer are no longer withdrawn from consideration because the claims require all the limitations of an allowable claim. However, claims 37-39 and 54-57, directed to product, and methods of use thereof, are withdrawn from consideration because they are product-by-process claims.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
